

End Merchandise Panels

Merchandise Panels:

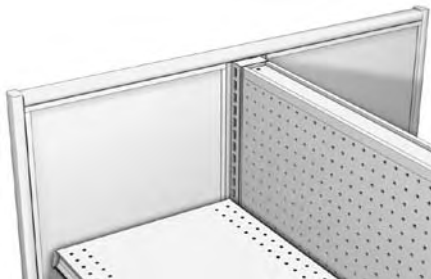

- Two styles: EMP & OEMP
- Slotted frame accepts most standard Lozier Shelves & Accessories
- 36"W & 48"W Frames also punched to accept tapered style double Stem Card Frame (HM2371)
- Upright End Trims not required & can be deleted from Island End
- Panels come with an Upright Trim piece at floor level
- Available with various exterior & interior Panel styles
- Uniformly distributed load of 400 lb. per Panel
- Base angles attach bottom of panel to Base End Trim (CHR only)
- **For pricing see section 300, pg 27-35**

OEMP-Offset End Merchandise Panel

WARNING: When End Merchandising Panels are used on a fixture where the first shelving section behind the EMP/OEMP is not equipped with Shelves that engage into the Upright slots, Top rail Hold Down Kits (HMA4381, pg. 137) must be installed. Failure to do this could allow the Top Rail to become disengaged and the fixture to fall over, causing property damage or personal injury.

EMP-End Merchandise Panel

Offset End Merchandise Panel (OEMP):

- Used on Islands that have different sized Decks on each side - accommodates up to 9" difference
- Hangs on outside of Upright creating 1" space from rear of Panel to Island Shelving
- Entire Pegboard exterior usable
- No additional hardware required for Uprights or Extension Upright applications that extend above
- Available in PM or MM panel style only

End Merchandise Panel (EMP):

- Fits around Upright for flush fit to Island Shelving
- Top of Panel is 1" above top of Upright
- For Islands with same sized Base Decks on both sides
- Pegboard: two middle columns of peg holes not usable
- Slotwall (SM/SIM) style mount outside & does not "step around" the Upright

EXAMPLE PART NO.

EMP	54	36	06	PM
-----	----	----	----	----
