

Multi-Function Shelving System

Multi-Function Shelving System:

- Attaches to new or existing Shelving runs
- Designed for hand loading only

Order Instructions:

- Add to Display Shelving as follows:
1. Determine height of Island/Wall Uprights & depth of steel Base Decks
 2. Order one MF Upright Assembly per desired MF Shelving Section, plus one for the end; repeat for other side of Island Section
Uprights available in two capacities:
 - 4,000 lb.: Regular Duty (84", 90", 96")
 - 5,000 lb.: Regular Duty (72" or 78") or Reinforced (84", 90", 96")
 3. Order MF Shelf Assemblies as required
Available capacity:
 - 1,600 - 3,000 lb. based on Beam & Shelf Support type & number of Shelf SupportsShelf depth should be ordered same as Base Deck depth
 4. Order optional Particleboard MF Deck Assemblies, if desired
Particleboard Deck rests on top of Steel Display Shelving Deck

WARNING: Multi-Function Beams are not intended to be used without Multi-Function Shelf, Supports, unless they are locked in place with a Widespan Beam Locking Clip (WS1291, pg. 705). Failure to use a Locking Clip when Shelf Supports are not used could result in the Beam becoming disengaged, and falling down, causing property damage or personal injury.
